

Date	Speaker	Topic
10/01/2018		
17/01/2018	Dr Ron Zimmern, Chairman, PHG Foundation	"Genetic Testing and its Ethical and Policy Implications."
24/01/2018	Matthew Bothwell, Outreach Astronomer and Cosmologist, Cambridge University Institute of Astronomy	"From Big Bangs to Big Rips: a history of modern cosmology" <i>During the early decades of the 20th century, a series of observations came together to utterly transform our understanding of the Universe's origins and behaviour. I will talk about the discoveries and debates that defined the birth of modern cosmology.</i>
31/01/2018	Simon Stott & Mercy Danga, John van Geest Centre for Brain Repair, University of Cambridge	"Helping the brain to repair itself"
07/02/2018	VISIT to: Cambridge University Institute of Astronomy, Madingley Road Cambridge, CB3 0HA	As a change to the usual pattern, we plan a visit to the Institute of Astronomy in Cambridge for their regular talk and, weather permitting, using the observatory. <i>Details of topic and logistics to be advised.</i>
